📍 Poltava, Ukraine

Hi! I'm a highly skilled WordPress developer with strong expertise in both front-end and back-end development. I specialize in creating seamless, responsive, and high-performing websites from scratch using WordPress and WooCommerce. However I am opened for new experience and challenges plus I'm a fast learner and interested in self grow because learning new things has always been great motivator for me. My work style is extremely flexible. I like to make sure that my work is perfect no matter what the difficulty of task is. I'm a real team player and with good communication skills. I'm sure that our cooperation would bring benefits for both sides such as growing of your company and improving my skills as a professional.
